128 MB RADEON

FUELED BY SAPPHIRE ATLANTIS 9600XT

128MB and 256MB versions available

Jettison Your Ties To The Terrestrial Realm

Blaze a trail into the outer rim of performance with the power and flexibility offered with the RADEON 9600XT driven SAPPHIRE RADEON 9600XT ATLANTIS. Encapsulating all of your cinematic and gaming desires is mission critical!

Built For High Octane Multimedia!

- Supporting Microsoft® DirectX® 9.0, Hardware DIVX Decoding and Theater Mode for an ever expanding universe of multimedia possibilities
- Constructed with a quad-pipe architecture, dual geometry engines, and support for the AGP8X standard.
- Best-in-class 3D gaming performance
- Enhanced video features for home entertainment
- Powered by CATALYST™ - The industry's most stable unified graphics software
- Integrated MPEG-2 decode

Cinematic Rendering

Immerse yourself in the world's fastest and most compelling game play, courtesy of the unprecedented speed and control of RADEON™ 9600XT family of visual processors

- 128/256MB DDR memory generates breath-taking frame rates
- 128-bit memory interface delivers the bandwidth for real time 3D graphics and barrier free performance
- 4-pixel pipeline architecture doubles the rendering power of other graphics processors

Maximum 3D

Brace yourself for feature film quality on your PC, the new standard in 3D entertainment.

- SMARTSHADER™ 2.0 technology supports the latest Microsoft® DirectX® 9.0 feature sets, enabling more complex and cinematic-quality lighting effects
- SMOOTHVISION™ 2.1 technology delivers the sharpest, clearest textures, removes jaggies and brings out fine texture details without sacrificing frame rates
- 128-bit full floating point precision enables billions of color variations to render the same lighting and effects as Hollywood studios

Dual display and TV-output

- Connect to a LCD screen or TV and a monitor (VGA or DVI) simultaneously.
- Ports Direct to your TV for Big Screen Gaming!

System Requirements

- Requires Intel® Pentium® 4/III/II, Celeron™, AMD K6/Duron /Athlon®/Athlon® XP or compatible with AGP 4X/8X universal slot
- 128MB of system memory
- Installation software requires CD-ROM drive
- DVD playback requires DVD drive
- Sound card supported by Windows® and DirectSound® with available line input
- 500Mhz minimum processor speed for MPEG-2 video capture

Graphics Controller

- RADEON™ 9600XT

Memory Configuration

- 128MB or 256MB DDR

Operating System Support

- Windows® 98, Windows® XP, Windows® ME, Windows® 2000

Display Support

- DVI Connector (DVI Version only) (Optional DVI to VGA adapter allows connection to a second VGA monitor)
- 15-pin VGA Connector
- S-video Connector for Video-Output (Optional S-Video to Composite Adapter available)
